YOUR SEARCH IS OVER

You would like to deal with your **core business**, and not with booking entries.

Irrespective of your requirements concerning your accounting function: we support you from **outsourcing** to on-site **support during sick leave** of your colleagues.

We are on your side during the **monthly closing, quarterly closing** and in the **budgeting process** within the group. We help you operate an appropriate **controlling** function that fulfills the factual and legal requirements.

We prepare your **annual financial statements** or support your team in the preparation.

We talk to your auditor and help you complying with the **internal controlling** and **compliance** regulations within the group.
